DJ HUSSLER

ARTIST · PRODUCER · DJ

House · Trance · Acid Trance
Hard Dance · Techno

BIOGRAPHY

Hussler is an Australian DJ, producer and radio host with deep roots in the global dance scene. With a passion for driving dance floors and connecting through sound, his sets blends peak-time energy with underground drive.

Whilst his passion for music cuts across various styles (house, trance, hard dance or techno), he is consistent in one trait: taking the crowd on an entertaining and energising journey.

Initially importing dutch house and hard dance music into South Africa, he relocated to the UK to be at the epicentre of dance music. A friend entered him into a national DJing competition where he won the Southern England heats reaching the quarter finals due to his blends of energetic sounds. The experience of controlling and exciting crowds propelled him to play at internationally iconic events like Orange at Camden Palace (KOKO) in London and Insomniac in Sheffield.

After an extended hiatus and relocating to Australia, he returned to music production and DJing in 2025, releasing music across house, trance and hard dance on UFO Rekordz and playing alongside internationally renowned DJs.

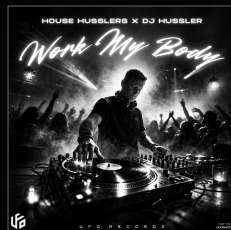

HOUSE HUSSLERS

In 2025, House Husslers was conceived, which is Hussler's alias under which he DJs and releases his house focused productions (house, jackin, progressive and tech house) - driving rolling grooves, deep bass lines and uplifting energy.
